### VICTORY CLUB

The Victory Club held their usual meeting at the home of Mrs. J. O'Connor, 7708 S. Ada St., on Wednesday, April 7th, 1920.

After the business meeting adjourned the club members played bunco, and they had some very pretty prizes. A very enjoyable afternoon was spent by all.

Their next meeting will be held at the home of Mrs. A. Walsh, 7727 S. Ada St., on Wednesday, April 21.

---

All the neighbors' "kids," each with their little birthday gift, found their way to the home of LeRoy Tress, 7843 S. Ada St., to celebrate his eighth birthday, Sunday, April 11, 1920, at 3 o'clock. The following were present: Vera Carrier, Loretta Bosk, Lucille Bosk, Mildred Tress, Grace Tress, Evelyn Wall Margaret Wall, Mary Malone, Winifred Malone, Rita Malone, Helen Warday, Dorothy Shand, Bill Carrier, Emmet Maloney, Richard Wall, John Malone, Seymore Warday, Raymond Tress, William Shand, and Miss Catherine Wall served. They played games and five beautiful prizes were given to the lucky ones. At 7 o'clock each little man saw his little lady friend home, which was very amusing to the grown-ups.

---

A card and bunco party will be given by Royal Neighbors of America, South Englewood Camp No. 3236, Friday evening, April 16, at Cosmopolitan Lodge Hall. Everybody welcome.

## *Jeanne De Kay Found Death in Lake She Loved*

### Heiress' Body Washed Up at City Pier

The body of Jeanne Anna De Kay, missing heiress, was discovered Monday in the lake. It is believed she committed suicide. She had been despondent because smallpox had marred her face.

Miss De Kay, daughter of John De Kay, reputed millionaire, disappeared from her room in Hull house Dec. 29, about 9 o'clock in the evening.

The search for her continued for weeks, Miss Jane Addams, Mrs. Gertrude Howe Britton, and relatives of the young woman assisting police and private detectives in the hunt.

**No Marks of Violence**

It appears now that she went to the municipal pier and jumped off into the water. A post-mortem examination showed death was caused by drowning. There are no marks of violence on the body.

### WHY ENLARGE THE AUBURN PARK HOSPITAL

The average layman is unaware of the terrible shortage of hospital beds in Chicago. We also feel that the southern district of Chicago should know of the excellent standing of Auburn Park hospital.

The efficient care and attention given patients have merited attention of the government and have designated it as one of the three government hospitals for the Great Lakes district to take care of the employees of the government, soldiers, marines, government inspectors, post office employees, also government railway employes as postal clerks, besides the U. S. shipbuilding employees.

The Chicago Board of Health also recognizes its efficient care and has designated this hospital to which all nurses and doctors south of 47th St. must bring defective school children for examination and treatment.

People living down state and the adjoining states depending upon the hospitals of larger cities naturally avail themselves of the superior services offered here. Probably this is due more to the fact that the best doctors avail themselves of the many hospitals and come to Chicago. When a difficult operation is advisable, people want the services of the good surgeons and came to the Auburn Park hospital.

The people in the vicinity adjacent to the hospital are aware of its excellent service and as a result of the above named facts more room is urgently needed.

There is only one solution to this overcrowded institution and that is to enlarge it so as to make it available to those needing treatment.

The Auburn Park hospital campaign committee are at work preparing to launch their drive for $500,000 the first of June.

### It's a Cold, Hard World

By James Montague in Minneapolis Tribune

Your hair was brown and your eyes were blue,
And, oh! you were fair to see;
But my love was vain, for a girl like you
Was not for a lad like me.
I knew that my dreams were hopeless, dear,
And life loomed dead and dun,
For you were the child of a bank cashier
And I was a plumber's son.

I saw you first when I came to mend
A leak in your kitchen range,
And I felt my fluttering pulse ascend
To a pitch that was new and strange.
I saw you passing my father's shop
In a wonderful new Spring hat;
And I thought my hammering heart would stop,
And it almost did—at that.

But caste is a hard and cruel thing,
And only too well I knew
That the doors of the banker would never swing
To a plumber that came to woo.
I hid my love in my breaking heart,
While my hairs grew gray and thin,
And the ways we took led far apart
As I dreamed of what might have been.

And though today I might make you mine—
For single we both remain—
The same impassable social line
Still stretches between us twain.
For all of my moneyed friends would sneer
And whisper, "That isn't done!"
If the child of a common bank cashier
Were to marry a plumber's son.

### FRIENDS OF IRISH FREEDOM

The Robert Emmet branch celebrated Easter week or the fourth anniversary of the Irish uprising in Dublin in 1916 with a grand mass meeting and splendid entertainment at St. Anne's hall, 55th and LaSalle Sts., Wednesday evening, April 7. The hall was packed to the doors and Judge Marcus Kavanagh was the orator of the evening. He received a splendid ovation, the audience rising as he entered the hall as a mark of respect to this great soldier, orator and purist. The Cunningham sisters of Beverly Hills rendered a cornet duet very creditably and Miss Straub of St. Margaret's Choral Society, accompanied by Miss Lou M. Wall, sang patriotic Irish and American songs and was encored. Judge Kavanagh joined the Robert Emmet branch, to the delight of the members. A large membership was enrolled and the entertainment was concluded by a dance in which the young men's club of St. Anne's parish participated and on the whole it was a most enjoyable and successful entertainment and mass meeting. The next mass meeting will be held at same place Saturday, April 24. Professor Gonnelly and others will speak.

The Charles J. Kickham branch held a splendid meeting at Auburn hall, 79th St. and Lowe Ave., Thursday evening, April 8. The hall was filled, a large number of new members were enrolled and they were particularly fortunate in securing the services of Judge Kickham Scanlan, who by the way is a godson of the great patriot, and whose father, Michael Scanlan, named him after Charles J. Kickham. Michael Scanlan, the judge's father, was a great leader in his day. He was a great scholar and poet and many of the old timers remember Michael Scanlan's book of poems, "Love and Land." The judge, who is always eloquent, was at his best and spoke feelingly of his dead godfather and the sufferings he received by imprisonment at the hands of the tyrant in the stirring days of '66, and as a mark of filial devotion became an active member of the branch. This branch is out to secure one hundred new members for the next meeting.

### Double Wedding Makes Buddy His Father-in-Law

The relationship of two soldiers at Fort McHenry was strangely changed from that of "buddy" to father-in-law by a double wedding in which they married a widow and her daughter.

The double wedding occurred when Harrison O. Lamb was married to Mrs. Ida C. Phoebus and George A. Beams married her daughter, Miss Mary M. Phoebus.

The soldiers were boyhood friends in St. Joseph, Mo., and met by chance at Fort McHenry. They met the widow and her daughter at a dance Valentine's day.

### BOY SCOUT FIELD DAY LAST WEEK IN JUNE

Plans are being perfected for a huge field day to be held at the Hamilton Park ball grounds during the last week in June under the auspices of the boy scouts of the southwest district. Committees have been appointed and a program is being arranged for this great day. From early morning until the middle of the evening there will be something doing for every adult of the southwest district.

The events of the day will include kite flying contests, calnisthetics, signaling, water boiling contests, chariot races, wall scaling, spectacular first aid, pyramids, military drilling, and many other things. Music will be furnished by the southwest district fife and drum corps. There will be a grand review of all the troops of the district in the early part of the afternoon. More details as to this day will be published as plans progress.

This week Saturday the scouts of the district will enjoy an educational trip through the Illinois Steel Works of South Chicago. This is a rare treat for those who will avail themselves of the privilege. Boys will leave the district office at 8:30 o'clock.

The district fife and drum corps was called upon to play at the central Y. W. C. A. circus at 59 East Monroe St., on last Saturday night, and Saturday, April 17, the boys will play at the big scout rally at Oak Park, Ill.

A scout demonstration will be given at the G. A. R. hall, 6236 Princeton Ave., on Thursday evening, April 21, at 8 o'clock under the auspices of the Women's Relief Corps of the G. A. R. Troop 640 will furnish scouts for the demonstration and music will be furnished by the southwest district fife and drum corps.

A dance and May party will be given by the Suangataha Club Saturday night, May 15, at the Cosmopolitan Hall. Everyone is invited and a good time is in store for all.

## The KITCHEN CABINET

He that has character need have no fear of his condition. Character will draw condition after it.

### THE ODORIFEROUS BULB

For a meat substitute, if your family is fond of onions, try these:

**Stuffed Onions With Ham.**—Parboil as many onions as will be needed; remove the centers and fill with one-half cupful of bread crumbs and the same of chopped ham and tongue, or either alone. Place the stuffed onions in a pan with one cupful of stock or butter and water, half a teaspoonful of salt and a few dashes of pepper. Bake until soft. Serve with a sauce made from the gravy in the pan, adding flour and butter and the yolk of an egg just before serving.

**Stuffed Onions and Chestnuts.**—Parboil ten onions until tender; cut off the tops and scoop out the centers. Chop these fine, seasoning with salt and pepper and chopped parsley; mix with half a cupful of bread crumbs and one-quarter cupful of melted butter. Put in a spoonful of the mixture and three or four blanched chestnuts, then another spoonful. Bake slowly, basting with butter and hot water.

**Baked Onions and Cheese.**—Parboil a half dozen even-sized onions, drain and put a layer into a baking dish, then cover with a layer of rich white sauce and three or four tablespoonfuls of cheese, grated or minced; repeat with another layer of onions, seasoning well with salt and paprika; cover with the white sauce and cheese and finish with a thick covering of buttered crumbs. Bake until the crumbs are brown.

**Onion Salad.**—Chop one or more Southern onions, mix with minced parsley and French dressing, highly seasoned with salt and cayenne. Serve on head lettuce.

**Onion Sandwich.**—Chop a mild onion very fine, add vinegar, a little oil, salt and pepper to taste. Spread on buttered bread and serve as a Sunday night lunch, after church.

**Onion Soup.**—Take one cupful of onion puree, that is cooked onion put through a sieve. Mix one tablespoonful of butter and flour together, add three cupfuls of milk and when scalding hot stir in the puree. Cook for a few minutes to cook the flour, add a well beaten egg mixed with half a cupful of cold milk and when hot, not boiling, serve.

# FARMERS TO OWN BIG LAND BANKS

### George W. Wickersham Tells How Federal Institutions Will Be Taken Over.

## TO BUY GOVERNMENT STOCK

**Eventually the Borrowers Will Acquire Complete Ownership of Banks Established Under Federal Farm Loan Act.**

That the federal land banks and the joint stock land banks are important supplements to the national bank system and the federal reserve system was emphasized by former Attorney General George W. Wickersham in the federal court at Kansas City, where he appeared with Charles E. Hughes and W. G. McAdoo to defend the constitutionality of the farm loan act.

Mr. Wickersham, who with Mr. McAdoo, appeared as attorneys for the joint stock land banks, made very clear the exact service which the federal land banks perform and their exact relation to the financial system of the country. He also made clear in what respects the joint stock land banks differ from the federal land banks.

**Protecting Small Borrower's Rights.**

Both types of banks (federal and joint stock) were created by the government to provide aid for the agricultural interests of the country. Mr. Wickersham said that the government with wisdom and singular comprehension, had reached out to take care of every element of borrowers. Therefore the federal land banks were created to provide credit for small borrowers, and the joint stock land banks were created to provide a similar agency through which the larger borrowers among farmers might secure ample funds, without having to rely upon the funds which had been assembled for the use of the small borrowers, and without danger of depriving the small borrower of the very money which had been assembled for his particular use.

He pointed out how in the case of the establishment of federal land banks the government had subscribed to the stock of these banks as a temporary aid to the particular class of borrowers it was intended these banks should accommodate. But, he said, this was only a temporary aid and that the government had provided that the stock which had been subscribed by the government should be taken up eventually by the borrowers so that in the end, in a very short time, the small borrowers will own their own banks, that is, that the federal land banks will be privately owned in the end even as the joint stock land banks are now privately owned.

**Federal Banks for Associations.**

"The federal land banks do not lend to individuals," said Mr. Wickersham, "they lend to organizations of borrowers, who together must desire at least $20,000, and who must organize themselves into a farm loan association, and they must subscribe to 5 per cent of the amount of the loan which they seek, in the stock of the federal land bank, as a condition to securing the loan.

"Provision is made that when these banks are set up, if within a limited time subscriptions are not made to the stock by others, the federal government, through the treasury department, shall take up the minimum amount of stock with which they are authorized to start business, to-wit, $750,000.00. Then, as they proceed in their operation, as they loan to these associations, and as these associations subscribe to their stock, by and by, by the operations of the system, the stock which the government has taken is retired, and ultimately those banks come into the control of their stockholders.

**Farmers to Own Banks.**

"The federal government, as a stockholder, will pass out, and if the system be successful, after a certain length of time, the land banks will be owned by the various loan associations which are borrowing through the land banks, and they will go ahead on the impetus of private ownership.

"Having thus provided a system whereby this great scheme shall be launched and become at once operative and money shall become available to the farmers desiring it, the act also provides that there be created a different class of banks, namely, the joint stock land banks.

"Following the analogy of the national banks, the act provides that from the outset, those banks shall be organized by private individuals. The stock shall be subscribed by private individuals, and when $250,000.00 is subscribed, then the bank may begin its operations.

**Joint Stock Banks Controlled.**

"Since the enactment of the law, 27 of such banks have been organized in different parts of the country, and they are set forth in the petition, and their aggregate capital is something more than $5,000,000.

"Now despite the fact that those banks are privately owned, from the beginning of their operations, they and their operations are subjected to control. They are invested with the same powers, they are made subject to the same liability as are given to and imposed upon the federal land banks.

## Street Car and "L" Men to Ask Higher Wages

Divisions 241 and 260 of the elevated and surface lines' employes voted Monday night to notify the companies that they would reopen the wage question when the agreement expires on May 30. Following a strike last summer the men were granted 65 and 67 cents an hour.

President Quinlan was authorized to appoint a committee to deal with the companies. The present agreement provides that thirty days' notice of new wage demands shall be given.

"We are not asking for more than we should have," Mr. Quinlan said. "Costs of living are going up all the time and the reduction in working hours almost resulted in a loss in spite of the raise. The members are hard pressed to live."

## British Ship Brings Gold, $10,000,000, for New York

Halifax, N. S., April 5.—The British steamship Carmania, which arrived here Tuesday on the way from Liverpool to New York, had aboard gold valued at $10,000,000 destined for the United States subtreasury in New York. The gold was in 332 boxes in the ship's strong room.

## SHIFTING GEAR ON NEW CAR

**Difficulty May Be Due to Slight Dragging in Clutch—Little Practice Is Necessary.**

When a car is new and the owner is not accustomed to driving it, there is often difficulty in shifting into intermediate gears, either from low or high. This may be due to a slight dragging of the clutch, or more often to the fact that the driver is not familiar with the speed of the motor at which the shifts should be made. A little practice is all that is needed.

The proudest member of the Navy with the Pacific Fleet is "Mick," Admiral Rodman's spaniel. From the tip of his tail to the tip of his nose "Mick" is a real sailor. The rougher the seas come the better he likes it.

"Mick" stuck his head through a life ring, at the photographer's suggestion, and is giving an imitation of a true patriot looking for an argument. Every man on the New Mexico is "Mick's" pal.

**Porcupine's Quills Not "Thrown."**

The spine of a porcupine, in the usual position, lie nearly flat, with their points directed backward, but when the animal is excited they are capable of being raised. The quills are loosely inserted in the skin and may, on being violently shaken, become detached, a circumstance which probably gave rise to the purely fabulous statement that the animal possesses the power of actually ejecting its quills like arrows or darts at an enemy.

**Wanted Pleasure Prolonged.**

Julia was invited to a birthday party given at an exclusive tearoom. When she was asked to choose dessert she said: "I believe I'll take gum—it will make the party last longer."

*Has the doctor ever come to you and said: "Mr. Business Man, your wife is very ill. We must get her to the hospital without delay. She's going to need a private room and a special nurse."*

And then have you gone to the phone and been informed, "We're sorry, but all our rooms are full. We MIGHT be able to give your wife a bed in one of the wards three or four days from now, and we MAY be able to get a nurse for her!

If this HAS happened to you—and it has happened to hundreds of men here in this vicinity—YOU appreciate just why you need greater Hospital facilities and equipment.

The Government has designated the Auburn Park Hospital as one of the three hospitals in the Great Lakes District, to which all officers, soldiers, post office employees and government officials are sent for treatment. The Chicago Board of Health has selected the Auburn Park Hospital to which doctors and nurses south of 47th Street send all defective children, for examination and treatment.

Why You Are Interested!

THE NEW AUBURN PARK HOSPITAL is to be run WITHOUT PROFIT; this will save YOU AT LEAST 30% of the prevailing prices in other hospitals and give you the best treatment to be had in any other hospital.

**Optimistic Thought.**
Time is a better comforter than reflection.

**Shooting the Mines.**

The U S Mine Sweeping Detachment has just returned from its work in the North Seas The ever present danger of floating mines was counteracted by the sharp eyesight of the men who were behind the guns Their job was to pick off the mines as they appeared and explode them by direct hits The lives of the other men aboard and the safety of the ship depended on their keenness

A large proportion of the 53 000 mines laid in the North Seas by the U S Navy was destroyed in this way

This is just one of the jobs that comes in the career of a U S. sailor, one of the experiences that gives him a grip on himself and makes him a regular fellow.

**Paws Here for Reflection.**
Said the facetious feller, "The main difference between valuable city property and valuable dogs is that the v. c. p is sold by the front foot, while the dog is jest charged for all over."
